Target mochi-daily-planner

No malicious behavior observed

We ran it 8 times, with a normal setup, WATCH_REPORT_DEPENDENCIES set and the clock moved a year ahead. It made no network connections. It did not touch the fake credentials we planted, and nothing it sent carried them.

Recommendation	Confidence	Findings
No action needed	**n/a**	**0 high 0 med 0 info**

Nothing observed calls for action. This is evidence, not a guarantee.
