

Target novel-to-drama

No malicious behavior observed

We ran it 8 times, with a normal setup, LC_MESSAGES set, docs:--input /absolute/agent-script.json --output and docs:self-test. It made no network connections. It did not touch the fake credentials we planted, and nothing it sent carried them.

Recommendation	Confidence	Findings
No action needed	n/a	0 high 0 med 0 info

Nothing observed calls for action. This is evidence, not a guarantee.

Scope

Package	novel-to-drama
