

Target urban-suspense-storyboard

No malicious behavior observed

We ran it 1 time, with a normal setup. It made no network connections. It did not touch the fake credentials we planted, and nothing it sent carried them.

no new behavior | 4 model steps, 4 commands

Observed behavior only. A clean result does not prove a package is safe. Findings describe what Detonator observed during these runs, not

a guarantee about code paths it did not reach.
